

# Mohawk College Cyber Security Club

Meeting Minutes – February 4<sup>th</sup>, 2021

---

Num. of Attendees: 9

Start Time: 7 p.m.

End Time: 8:44 p.m.

---

## Announcements

- Executive member elections are ongoing. Elected members will shadow current executives to learn about the position before taking over.
  - Nominate yourself or another member here:  
<https://forms.gle/4faApfQYMfzbcC1R8>
- The New Developers Study Lounge is held every Wednesday from 4:00 p.m. – 6:00 p.m. Register with their mailing list to receive an invite <https://thenewdevelopers.com/>

## Meeting

- **Book Club Discussion**
  - The Hacker Playbook 3 - Pages 22-27
  - Cobalt Strike section was found to be irrelevant, pricy, and lengthy
  - Links provided in the book lead to long pages with too much information
  - How red and blue teams work together in the real world
- **TryHackMe Vulniversity Continuation**
  - Picking up at Task 3 - GoBuster
  - Basic GoBuster use and syntax
  - Also showcasing dirb as an alternative tool with the same function
  - Continue to Task 4 – BurpSuite
  - Configuring Firefox to work with Burp
  - Issues with figuring out how to accurately complete the task but was able to trial and error it
  - Uploading a reverse shell using the allowed filetype
  - Could not successfully connect to the reverse shell with the listener
- **TryHackMe Active Directory Basics**
  - Room is only accessible with a membership to the website
  - A large majority of companies use AD
  - Organized with a hierarchy structure, centralised
